THE BEREAN UPPER ROOM PLATFORM

Design System

Version 1.0 · 2026 · Foundations & UI kit

FOUNDATIONS

A room to feast on Scripture — and to honestly say what you found.

A faith-centered community for Christians who love God's Word, study it deeply, and gather to reflect honestly. We feast on Scripture daily, then come together to "burp" — sharing what stood out, what challenged us, what stirred us, what confused us.

BRAND PILLARS

Feast. Scripture as nourishment — slow, daily, satisfying.

Reflect. The "burp" — honest, humble, sometimes unresolved.

Question. Bereans verified what they were taught. We do too.

Gather. Upper Room — small rooms, real people, presence over performance.

Grow. Long arc. Old-world weight. Not built for the algorithm.

The mark

The arch, the open book, the gold ripple. Stone-and-light, parchment, water — old materials drawn quietly.

Voice & content

A thoughtful friend after a long conversation, not a pulpit. Plain prose. Short sentences. Occasional dry humor. Reverent without solemnity.

YES / NO

Surface	Yes	No
Hero	A room to feast on Scripture — and to honestly say what you found.	Transform your spiritual journey with bite-sized Bible insights!
Empty	No reflections yet. Read something. Sit with it. Come back.	Oops! Nothing here yet 😅
Button	Share a reflection	SHARE NOW
Toast	Saved. Three readers are in the same chapter today.	Success! 🎉
Error	We could not load that passage. Try again?	Whoops, something went wrong!

HARD RULES

- Three fonts only — Cormorant Garamond, Inter, Cinzel.
- Four colors only — Parchment, Ink, Stone, Gold. Gold is scarce.
- Wide tracking (0.18em–0.32em) on serif caps. Always.
- Dot-rule is the signature divider. Never a button or card border.
- Sentence case for headings and buttons. ALL CAPS only on the wordmark and Cinzel eyebrows.
- No emoji in product UI. No staged stock photography. No spring/bounce easing.

BURP Web — UI kit

An interactive recreation of the platform — feed, scripture reader, reflection composer, and Upper Room. See `ui_kits/burp-web/index.html`. A separate print file ships every screen at `ui_kits/burp-web/index-print.html`.

SCREENS

- Home feed — the burp wall
- Scripture reader — long-form passage view
- Reflection composer — modal, gold focus ring
- Upper Room — a single small group

PRIMITIVES (PRIMITIVES.JSX)

- Button, Tag, Avatar, AvatarStack
- Field (input + textarea)
- DotRule, Eyebrow, Icon

HOW TO USE THIS SYSTEM

1. Link `colors_and_type.css` at the top of any page. Tokens are CSS custom properties — use them, do not override.
2. Pull in fonts via Google Fonts (Inter) and the bundled TTFs (Cormorant Garamond, Cinzel).
3. Compose UI by reaching for the primitives in `ui_kits/burp-web/`. Lift them into prototypes as-is.
4. Read the **Voice** page before writing any new copy. Tone drift is the most common failure mode.

CAVEATS & OPEN QUESTIONS

- Cormorant Garamond not supplied — EB Garamond bundled behind the alias.
- Inter pulled from Google Fonts at runtime.
- Phosphor Regular substituted as the icon set.
- No codebase or Figma supplied — the UI kit is a brand-DNA recreation, not a port.
